

CDBG support for local non-profits

Non-profit organizations providing social services predominantly to low- and moderate-income residents of Vineland are eligible to apply for support from the City of Vineland Community Development Block Grant (CDBG) Program. Funds are limited and demand is great, but eligible new applicants are welcome. Applications are reviewed by staff in conjunction with the Community Development Advisory Committee.

Applications are considered annually. An invitation to apply is sent each year, typically in January, to organizations that have received funding previously or have asked to receive an application. To be added to the list of organizations being invited to apply, send contact information to:
