## **ANNOUNCEMENT**

### **City of Vineland to present community video soon**

Internet users accessing the City of Vineland Web site will find something new soon. In Spring 2009, the site will be enhanced with videos highlighting numerous areas of the city.

The City of Vineland has entered into a contract with CGI Communications, Inc., Rochester, N.Y., who produces the videos at no cost to the city, but finds support from local business sponsors. The video will include a welcome from Mayor Robert Romano and mini tours of several of the most important aspects of our city, such as Education, Healthcare and things to do.

To be Included with the streaming video about Vineland will be informational videos about the local businesses that may sponsor the videos. Although the city of Vineland Web site may look different the address is still the same. The videos will be viewed at [www.vinelandcity.org](http://www.vinelandcity.org)
