

Nds Scientific Glass Inc. has secured \$1,200,000.00 in commercial capital for expansion in Vineland New Jersey.

March 18, 2021 Craig Etkin

Vineland, NJ — Nds Scientific Glass Inc. has secured \$1,200,000.00 in new commercial financing for expansion opportunities in Vineland. According to the company website, NDS Technologies, Inc. is a leader in the design, development and manufacture of high-quality specialty glassware, plastic and related products for scientific professionals in industry, government and education. It is our goal to provide excellence in customer support, engineering, and manufacturing to all of our customers and partners. NDS Technologies was started in 1990 with corporate headquarters in Vineland, NJ. We have over 30,000 square feet of manufacturing space.

Our state of the art facility, coupled with our concern for our employees, enables us to maintain one of the most experienced and skilled staffs of scientific glassblowing professionals in the industry.
