Password: 452469

**Can't attend?** The meeting will be recorded and available for viewing after the meeting. Go to <https://www.vinelandcity.org/chestnut-avenue-ss4a/>

Please join us in learning more about the project and provide feedback on the proposed improvements to Chestnut Avenue. Visitors may attend anytime during the hours specified in-person or online to review project information and meet the Engineers, along with City of Vineland staff.

To enhance safety for all roadway users and to be responsive to community feedback so far, the City of Vineland is proposing to convert the existing four-lane, 50-foot-wide multilane highway into a four-lane thoroughfare with a center two-way-left-turn lane between S. East Boulevard and Seventh Street. Other signalized intersections will include a 12-foot-wide left-turn lane. The project limits are between Delsea Drive (NJ Route 47) and Main Road (CR 555). The project will also feature an 8-foot-wide shared-use path along the northern side of the roadway and a 5-foot-wide sidewalk on the southern side to improve mobility for nonmotorists throughout the corridor. ADA ramps will also be upgraded at all intersections to allow all users to make use of the proposed paths. Traffic signals will be improved to optimize travel times and reduce speeding associated with progression through multiple green signal indications.

### This is a great opportunity to ask questions:

What is the purpose of this project?

Where are the problem areas?

What improvements will be made?

How do I participate?

CITY OF  
**VINELAND**  
WHERE IT'S ALWAYS GROWING SEASON
